Inventory & Asset Mgt.	E-learning, Digitised Homework Mgt. & Download	Behaviour Management
Clinic & Cafeteria Mgt	Fleet Mgt. & Sick bay	Chart of Accounts, Budgeting & Financial Reports

Everyone can make better decisions and achieve better outcomes if they have access to clear, detailed, up-to-date information. Stale data from traditional data collections and progress reports simply doesn't provide this.

By tracking performance using a wide range of measures and providing transparent real-time data, **edplus360** takes the guesswork and delay out of measuring progress and planning interventions.

Self-Service

Staff can instantly access the information they need to work efficiently and deliver wholeschool improvement.

Efficiency

Assessment, attendance and behavior information feeds seamlessly into statistics and online student progress reports. There is no need to copy data between systems, deal with fragmented spreadsheets or spend hours extracting and summarizing data.

Convenience

Easy, online 24/7 access from work or home, for staff, students and parents.

No Delays

Statistics and tracking information reflect marks entered seconds ago, so you don't have to rely on old data or wait for the next data collection before you act.

Inclusivity

Information can easily be shared with support staff, students and parents to help everyone work together towards better outcomes.

Clear And Consistent

Appropriate statistics and summary information are automatically displayed for the focus you are viewing, from year group to individual student, instantly revealing where additional support is needed.

Cost-Effective

Save time and money with online reporting to parents and quick and easy upload of data. There is no more need for production of data reports for staff by the data manager. This gives staff more time to focus on analyzing data rather than creating it.

EDPLUS360 is designed specially for educators to streamline school management, attendance, and assignments, increase collaboration and enhance classroom communication to make teaching more impactful.

Simple Operations Helping Schools To Do The Following:

- Promote good attendance and reduce absence.
- Plan more effectively by allowing you to use mobile devices as well as PCs to collect accurate information from across the school.
- Help foster deeper teacher, parent and student engagement.

Benefits For Teachers:

 Record attendance online in seconds and check student attendance to plan for catch-up work to support student learning.

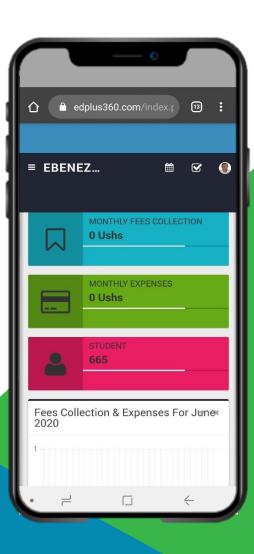

edplus360

- Evidence-based grades from online markbooks feed straight into reports, saving staff time and improving accuracy.
- Instant access to the child's attendance record helps parents support school efforts to reduce absence.
- Staff can write reports from work or home.
- Input from staff can be tracked in real time, which is great when deadlines are approaching.
- Reports can be delivered to parents online, saving a huge amount of time and money, or can be produced as great-looking PDFs for printing.
- Staff are prompted to perform actions in line with school policy, bringing consistency and reinforcing the policy.
- Subject leaders can easily set up markbooks to collect the detailed information they need to track progress accurately within their subjects and between their groups.
- Working grades are fed instantly into student progress reports and statistics for year groups, departments, etc enabling tracking and intervention planning using the latest data.
- School defined grading schemes can be created to track progress with assigned points and with your preferred assessment vocabulary (i.e. secure, emerging).

Student Engagement: Students love being able to see progress during the year. Information about assessments, behaviour and attendance helps them understand how they are doing and what they can work on.

Benefits For Students:

- Engage in their progress and assessments across the curriculum.
- View progress, attendance, behaviour, feedback and homework online.
- Support independent study for all students with core and extension homework.
- Have visibility of library books available to them and be proactive in booking them in advance.
- Have access to the full scope of their school week schedule for better time management planning.

Parental Engagement: Boosting engagement with access to today's information getting the parents involved in their children's development. Parents appreciate being able to follow their children's progress throughout the year and feel included in the assessment process.

Benefits For Parents:

- Easy, online access for parents 24/7.
- Instant access to target grades, progress reports, timetable and attendance data.
- Up-to-the-minute, detailed attainment, attendance and behaviour information – not just occasional summarised grades.
- Support student organisation and parental engagement with online individual student homework overviews.
- Increased access to ad-hoc information further helps the parents support their children.
